

- ✓ Efficiently search for the business partner you are looking for
- ✓ Recommend a matching partner
- ✓ All matching members can be contacted

The exhibition hall is a great place to discover new leads, but it can sometimes be hard to hold more in-depth discussions.

Our patented Pre Appointment System lets you **approach your perfect partner before the event**, whether exhibitor or visitor, and does the hard work of setting up your business meeting schedule for you.

1. Create your profile

Exhibitors

ID will be sent by the organizer

 Exhibitor Login

Visitors

Visitor registration + Business matching system registration

 Visitor registration

 Visitor Login

Fill out your profile

2. Find potential business partners

Search

Search by name, keyword, industry, product category, and more...

Recommend

The system automatically suggests promising participants!

3. Send appointment requests

If you are invited to a meeting, just click Accept or Decline!
...but don't just wait for requests to come to you—**actively approach** other companies to improve your chances.

Tip

Personalize your messages—you're more likely to be successful if you address your target's needs directly!

4. Leave the scheduling to the System!

The BMS automatically assigns a place and time for each meeting. **It's simple!**

New participants continue to register until the event starts, so keep searching!

Tip

Appointment can't be scheduled? Your schedule probably doesn't have any slots compatible with the other party – try freeing up some spaces!

During the Event

5. Meet in person!

Simply head to your designated meeting place at the scheduled time for your appointment!

Check your schedule on your mobile device, or using one of the system computers inside the meeting areas.
